

Lincoln County Leader.

VOLUME 24

TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, OCTOBER 20th, 1916.

NUMBER 35

NEWPORT

Gus C. Moser spoke at the Midway Theatre Saturday to a large and attentive audience upon the political issues of the day. Mr. Mosher is an eloquent and forcible speaker. A number of county candidates were present and occupied seats on the stage. C. E. Hawkins, Al Schwartz, Henry Howell, Alex McMillan, Assessor W. E. Ball any Mayor Bensell. Will E. Gwynn acted as chairman of the meeting. The County candidates were introduced first, wearing their best smiles and made little speeches, promising to do their duty if elected. Mr. McMillan took the blue ribbon for poise and beauty. He is a surveyor and the youngest member of the lot. The speaker of the evening was then introduced amidst a round of applause. Mr. Mosher has the facilities of presenting what has to say in a very clear impressive manner, so everyone can understand it. The speaker explained very fully the Democratic free trade policy—tariff sufficient to run the government economically administered—this policy always brings hard times, closes the factories and throws the employees out of work. It is the history of this country that whenever the Democratic party gets in power we have hard times. The party is too sectional and dwells too much in the dead past. As one has said the Democratic party is like a man riding in a wagon backwards, never sees anything till it is past. We need push, progress and more patriotism. The Mexican muddle was discussed and it was plainly shown that President Wilson instead of keeping us out of war by his temporizing, came within a jiffy of getting us into war. His policy with Mexico is like shaking a red flag in the face of a mad bull, it only made them more angry and restless. We did have a small war with that people because of lack of firmness in the first place. It is because of lack of firmness in treating with foreign nations that our country has been humiliated. Polished language, rounded sentences and elegant diction may sound well to the ear but it don't have much effect on a belligerent people. The government is now passing through a great crisis and it will take a strong man—a man of great ability to pilot the ship safely through this great storm and the man to do this is Charles Evan Hughes. The world is looking on. The Mexican people are disgusted and are hoping for a change of administration—one that they have confidence in—one that can handle the situation. President Taft had no trouble with the Mexican people and it will be so again when the Republican party is restored to power. Money will be loosened up—business will start and everything will be prosperous once more.

Mr. Mosher spoke at Waldport Friday to one of the largest audiences he had met in the county. A community fair was on and everybody was out in mass. The fair was gotten up on short notice but the exhibits were fine and a credit to the community. This was the first fair ever held at that place and everyone pronounced it a very great success. Waldport, like other parts of the county, is fast coming to the front.

Congressman Hawley spoke on the evening of the 12th at the Commercial Club Rooms, to the business men of the city. Mr. Hawley is well informed and made a very interesting and impressive address. He was introduced by Dr. Carter who was chairman of the meeting. He discussed the present issues that effect the welfare of the people. Everyone could understand it. He made a good impression on the minds of the people in his audience. In congress he is a quiet, tireless worker and his work counts. He is popular in congress and has succeeded in getting through every appropriation that he championed, for the good of the state, but one.

Mr. Hawley discussed with the

citizens of the town some of the important measures for the good of the harbor improvement. He gave out some good information in regard to future improvements and said he would continue now as he had done in the past to help every meritorious project that came up for the improvement of rivers and harbors. Under the present system the people will have to help these improvements along. It is the wish of the people to have only one port district but as Alsea doesn't want to give up her district the remainder of the county would have to go into one district to be large enough to do any good. This matter would have to be submitted to a vote of the people before it would be valid. Mr. Hawley will no doubt be returned again to congress where he can continue his work for the good of the state. He has the good will and confidence of his associates as well as the support and good will of his constituents. Mr. Hawley is making a tour of his district to better acquaint himself with the wants of the people also to make a number of speeches in the interest of his candidacy and in the interest of the Republican ticket. He went from here to Tillamook to make one or two speeches.

Mr. Shumacher, president of the Rod and Gun Club, has just received of the State Fish and Game Commission, 28,000 young trout to be placed in the streams and rivers of Lincoln County. Mr. S. is superintending the distribution of the fish in the following streams: Little and Big Elk, Beaver Creek, Wrights Creek, Drift Creek and the Yachats. The fish came from Bonnevill, about 200 miles in good condition. They were put in milk cans. The fish in our rivers and creeks are getting less every year and something must be done to replenish them. At this time there is great demand to have hatcheries established in the rivers of the state. The expense is paid from the license money. At one time a fine hatchery was established on the Big Elk but because there was some opposition to it the plant was taken out. This was a great mistake. It brought to that community many dollars. I hope it will be re-established. The fish and game must be propagated and protected.

GLEN

Was you at the Eddyville fair—well you "orter bin" there. We had lots of fun. Hope they have another one next year.

Mr. and Mrs. Davenport and family expect to depart for the Valley next week where they will make their future home. They have spent about twenty-three years of their lives in this county. They have been good neighbors and friends to every one, and we all regret their going. We wish them much prosperity and happiness in their new home.

A picnic was held at the school house the 14th for the purpose of electing a fair board for the coming year for the Big Elk fair. Not many outside of Harlan were there but representatives from all parts of the Valley were elected to work in the interest of the fair. Everyone seems pleased with the first attempt and hoped to do still better next year.

DROWNED MAN FOUND IN FISH NET

John Winkler of Taft, who was in the city the first of the week, reports the drowning of Louie Jensen in Salmon River. It seems that Mr. Jensen disappeared suddenly about three weeks ago. Nobody thought much of it as he was a stranger there, and naturally thought he had left the country, until the first of the week when Marion Curl was running his net he found the dead body.

MARRIED

At the parlors of the Commercial Hotel in this city yesterday occurred the wedding of Mr. Leonard Grant and Miss Ruth Allison, both of Harlan, the Rev. C. R. Ellsworth officiating.

Mr. Grant is the next youngest son of Mr. and Mrs. B. F. Grant of Harlan, was born and raised in Lincoln county, and is now one of the prosperous young farmers of the Harlan section. Miss Allison is the eldest daughter of Mr. and Mrs. H. W. Allison and is a popular and accomplished young lady.

Mr. and Mrs. Grant will make their home on the groom's farm.

With the wedding of yesterday Mr. and Mrs. B. F. Grant were left without any unmarried sons, as during the past month three of the boys have sought wedded bliss. Lige was the first to be married, he and Miss Clare Moore having been wed at Salem about a month ago. Last week occurred the wedding of Huston Grant and Mabelle Allison, and the wedding of yesterday makes the third.

The Leader begs to join with the many friends of these young couples in wishing them long, happy and prosperous married lives.

Giles Olin was over from the Agency yesterday.

G. L. Gray was up from Newport yesterday.

Mrs. A. C. Michael of Salem was in the city last Saturday looking after property interests. Mrs. Michael owns forty acres at South Beach where she expects to make her home in the near future.

Billy Wakefield, chief spieler for the great Ro-Tana side shows, at the Eddyville fair, and erstwhile county commissioner, was in the city this week attending county court. Mr. Wakefield is a candidate for re-election at the November election, and we do not think that the people of Lincoln county can find a better man for the job.

Remember the Toledo-Newport football game next Saturday, tomorrow, on the local gridiron. This game is between the Toledo High School boys and the Newport High School boys, and will be interesting from start to finish. In the past these teams have been very evenly matched, and by studying the dope sheet it is hard to pick the winner. Newport will send up a big bunch of rooters, and the Toledo fans always turn out.

EDDYVILLE FAIR

The Eddyville fair is over and to say it was a success would be putting it mildly. The exhibits were all good—better than expected on account of this being a backward season. The baby contest was fine. There were ten of as good babies as one would find any where; and the dinner was plentiful and anyone missing it missed a treat. And then came the amusements which lasted all the afternoon, with various wild west stunts. But the capturing and burning of the emigrant wagon was real and worthy of all the applause given.

And the side shows were very good and well patronized and the management of the fair wishes to thank one and all who helped so faithfully to make the fair the success it was and also wishes to thank the people of Toledo and other places for their patronage and in behalf of Buffalo Lemon wish to thank all the boys who helped him in his part of the entertainment.

There is part of the exhibit that ought to have special mention first is the potato display which was the largest of any and as fine a lot of spuds as any one would wish to look at. There were large and small red, white and blue ones; and the apple display was good but not as extensive as last year on account of poor season for fruit. And Mrs. J. J. Pepin's carrot display—she had carrots cooked, canned, preserved, pickled and jellied—in fact there were carrots fixed in 14 different ways.
